Quality and Design

- **Durable Construction:** Equipped with high-quality steel rollers and a robust chamber ensuring exceptional durability and a long lifespan
- **In-house manufacturing:** all parts are manufactured in our facility ensuring precision and quality control. spare parts are readily available to minimize downtime
- **Versatile Compatibility:** Designed to operate efficiently even with smaller tractors making it accessible and practical for a wide range of users

Fast pickup and Superior bale Quality

- **High-speed wide pickup system:** Engineered for rapid and efficient forage collection ensuring minimal waste and maximum productivity
- **Advanced Hydraulic pickup:** Adapts effortlessly to any terrain and forage type delivering consistent performance in all field conditions
- **Customizable bale weights:** adjustable bale weights from 200 to 500 kg tailored to suit various operational requirements
- **Versatile wrapping option:** offers dule wrapping systems (net and twine) providing flexibility and efficiency to meet diverse farming needs

Easy Maintenance

- The hood fully opens for quick and convenient access to internal components for servicing and inspection

Key Features of the Machine

- Easy transportation and maneuverability
- Ready-to-operate design for quick deployment
- High-efficiency feeding system for optimized performance
- Exceptional durability with low maintenance requirements
- wide pickup for enhanced forage collection
- Advanced safety features and hydraulic controls for secure operation
- superiore maneuverability ideal for tight spaces and challenging terrain
- Automatic lubrication system to extend component life
- dual wrapping option: net and twine for flexible packaging
- Adjustable bale density via a hydraulic system (up to 500kg)
- intuitive digital control panel inside the tractor cabin for effortless operation

NEW PRODUCT

RSA - RB122

Bale dimensions

Width of the bale	1220mm
Diameter of the bale	1300mm
Bale Weight	200-500 kg

Pickup system

Pickup width	2100mm
Number of tines	5

Tractor requirement

Minimum pto power	41hp
Rear pto speed	540rpm

Gearbox volume

Gearbox volume	2/5liter
Oil type	SAE 90

Tires

Left/Right tire size	33/12.5R15
----------------------	------------

Overall dimensions

Height	2290mm
Length	4330mm
Width	2400mm
Weight	2850kg

RSA company following its remarkable success in designing and producing square balers has now introduced the RB122 round baler marking a new and innovative step in the agricultural machinery industry. This machine features a unique design and high-quality construction ensuring minimal wear and tear while delivering top-notch performance on large farmlands.

The RB122 is designed to simplify operations and accelerate the process of forage collection and baling. Built with durable and robust components, it guarantees reliable and efficient performance under various working conditions. Combining advanced technology with a practical design, the RB122 is the ideal choice for professional farmers seeking high efficiency and long-lasting reliability.
